School Committee Resolution

WHEREAS, free public schools available to all students without exception are foundational to our democracy and are required by the state constitution; and

WHEREAS, all of our students, no matter where they live, deserve high-quality public schools that teach the whole child and provide them with a rich school experience that addresses their academic, social and emotional needs;

WHEREAS, the state's foundation budget formula, which determines state aid to each district, has been woefully out of date for years, thereby underfunding our districts by more than \$1 billion a year for essential educational services; and

WHEREAS, an updated foundation budget formula would bring Medford up to \$4,134,775 in additional state aid each year, allowing us to move closer to providing all students with the education to which they are entitled as residents of the Commonwealth; and

WHEREAS, the Legislature failed to pass any foundation budget legislation in the last session, leaving districts, educators and students without the funds necessary to support the schools our students deserve in every district in the state;

THEREFORE, be it resolved that the Medford School Committee urges the Legislature to approve and fully fund a new foundation budget formula and support the Education PROMISE Act as submitted by Senator Sonia Chang-Diaz by May 1, 2019.
