VI. Continued Business

VII. New Business

1. Whereas the McGlynn playground continues to be in substandard conditions; the project for replacement is taking longer than initially anticipated; and the mosquito born illness West Nile Virus has been detected in Medford: An update on this project will be provided; and a request will be made by the Mayor to the DPW to clear the standing water at the playground whenever standing water is present to limit the opportunity for mosquito breeding which could threaten our students and staff that use this playground.

- *Offered by Paul Ruseau*

2. Whereas the design study to replace the McGlynn playground was delayed by the COVID-19 pandemic, and whereas unstructured outdoor play promotes the development of important social-emotional skills, be it resolved that the School Committee authorizes up to \$2,000 to conduct a Playground Safety Inspection by a [Certified Playground Safety Inspector](#) at the McGlynn Elementary School playground as quickly as possible. Be it further resolved that the results of the inspection are presented to the committee so that identified safety concerns can be remediated expeditiously.

- *Offered by Jenny Graham*

3. In light of rapidly increasing COVID-19 positive cases in Medford; the low vaccination rate of our eligible students; the nearly 2000 students that are not yet eligible for vaccination; the importance of contact tracing and adherence to protocols designed to limit exposure of our students and staff when positive cases arise: The protocols for contact tracing and communication for close contacts will be presented.

- *Offered by Paul Ruseau*
