

City of Medford

FY26 Community Preservation Act

City Park Invasive Plant Inventory

EXECUTIVE SUMMARY FOR CITY COUNCIL
FEBRUARY 24, 2026

Dear City Council,

This executive summary provides an overview of a FY26 Community Preservation Act (“CPA”) funding recommendation made by the Community Preservation Committee (“CPC”) for the Medford City Council to consider.

This recommendation took into consideration public feedback received at community outreach events/surveys and priorities of City leadership, was informed by the City’s Open Space and Recreation Plan, as well as our Comprehensive Plan. This information is intended to provide additional detail of the project and its community impact.

We thank you for your time and consideration.

Respectfully submitted,

Theresa Dupont
Community Preservation Act Manager

Project: City Park Invasive Plant Inventory

Funding Recommendation: \$10,000

Applicant: TreesMedford

CPA Category: Open Space/Recreation

[Link to application materials here](#)

Project Summary:

Conduct an inventory/study of known non-native, aggressive, invasive plant locations within Medford’s city parks. This project is being applied under the CPA Small Grant application process, which accepts small projects on a rolling basis throughout the year.

Objectives:

- Identify and create an inventory of known invasive plants, such as black swallow-wort, Japanese knotweed, bittersweet, garlic mustard, tree of heaven, burning bush and more, within Medford’s public city park land.

Key Outcomes:

- Help inform future planned removal efforts and educational/public awareness campaigns
- Strengthen Medford's biodiversity through initial inventory, allowing for prioritized targeted efforts
