

Special Meeting
August 21, 2013
School Committee Meeting
Council Chambers

A special meeting of the Medford School Committee was called to order by Mayor McGlynn in the City Hall Council Chambers at 5:30 p.m. Those present were Ms. DiBenedetto, Mr. Falco, Mr. Scarpelli, Mr. Skerry, Ms. Van der Kloot, Mayor McGlynn and Superintendent Belson. Ms. Cugno was absent.

Update Report on Medford High Pool

The total M.H.S. pool reconstruction has been approved by the Medford City Council. Bid specifications are now being reviewed. It is expected that the project will begin this fall with a projected completion date of April 2014. The Superintendent is reviewing operational options and plans for the opening of the pool sometime next spring. Details will follow when the study is complete. A phased-in utilization plan is likely.

Vote: On the motion to accept the report and place on file by Mr. Scarpelli seconded by Mr. Skerry:

Yes: 6 DiBenedetto, Falco, Scarpelli, Skerry, Van der Kloot and McGlynn

No: 0

Absent:1 Cugno

Vote on Proprietary Hardware for Medford High School Pool

Pursuant to very specific procurement rules the required rule is as follows:

The elected body (school committee) by majority vote in public session must identify all proprietary items and determine that the selection of each item for inclusion in the project is in the best public interest.

The City would like to identify two proprietary items in the bid specifications for the Pool Renovation Project. Pursuant to M.G.L. Ch. 30, 39M, we are requesting a vote of the School Committee that is in the public interest that we specify these two proprietary items.

One item is the lock system. The City would like to require a Schlage lock system. This is the same lock system that is used in every other school in Medford (with the exception of Curtis-Tufts). Having a single lock system throughout the entire school district again facilitates maintenance. One of the issues right now at the high school is the plethora of locks and locking systems. Having a single system would enhance security and facilitate maintenance.

These items have been reviewed favorably by the city's Chief Procurement Officer. Therefore, we are requesting formal approval from the Medford School Committee to enable us to move forward with the acquisition of these two proprietary items.

On the motion to approve the Schlage lock system proprietary item by Mr. Skerry seconded by Mr. Scarpelli:

Yes: 6 DiBenedetto, Falco, Scarpelli, Skerry, Van der Kloot and McGlynn

No: 0

Absent:1 Cugno

Vote on Invensys Controls as a Proprietary Selection for HVAC System for Medford High School Pool

The second item is to request that Invensys controls be used in the HVAC system that is being installed. The high school already has Invensys controls in other parts of the HVAC system and would like to have a single platform of controls to allow for proper maintenance. In the long term, the School Department Buildings and Grounds Director is looking at the ability to remotely control the HVAC system and having a single platform is therefore desirable. These same controls were specified in the Science Lab Project as well.

On the motion to approve the Invensys HVAC system proprietary item by Mr. Skerry seconded by Ms. Van der Kloot:

Yes: 6 DiBenedetto, Falco, Scarpelli, Skerry, Van der Kloot and McGlynn

No: 0

Absent:1 Cugno

Report on Cleaning Contracts

Bids are now under review and we will have a cleaning contract in place for the opening. On the motion the report was accepted and placed on file.

On the motion by Ms. Van der Kloot seconded by Ms. DiBenedetto to congratulate Mayor McGlynn, Sheila McGlynn and the McGlynn/Belanger Family on the birth of a second grandson. (9lbs. 7 oz.).

Vote adopted.

The Superintendent distributed a summer update to the committee for their review on various matters pertaining to summer work and readiness for school opening in September. A projected elementary class size chart was also provided.

On the motion of Mr. Falco seconded by Mr. Skerry the meeting was adjourned at 5:46 p.m.
