AGENDA

1. Develop a Timeline for the 2022/2023 Superintendent's Evaluation process including due dates for all parties involved and a tentative schedule for sub-committee meetings.
2. Develop a process for the 2022/2023 Superintendent Evaluation, including the timeline, templates and instructions for school committee members.
3. Discuss the types of evidence the Superintendent will provide to document progress on the year's goals and selected indicators.

Roll Call: 3/0

Background: School Committee had a retreat with Dorothy Presser (MASC) who has also worked with DESE on the Superintendent Evaluation process. She provided a training on the Superintendent's Evaluation and it was determined the MSC should make a few updates to their own process to better align with DESE's guidelines.

Wednesday February 1, 2023: Committee of the Whole Meeting. Some of the updates the School Committee wants to make were discussed.

Monday February 6, 2023: Regular School Committee Meeting. Some of the updates, along with the formation of a new Evaluation Sub-Committee were approved as follows:

- Instead of using the number rating system, the word rating system that is in the DESE guidelines would be followed closely in order to rate the Superintendent
- Sub-committee would be responsible for creating the process for the evaluation this year in addition to compiling the individual composite evaluations that would be submitted to the full school committee for approval.
- Agreed the superintendent evaluation would include all the raw data from all the members in addition to the composite evaluation from the sub-committee members
- Approved 9 indicators that closely aligned with the superintendent's goals, were chosen this year and would be used from the superintendent evaluation rubric.
